

Engineered for Safety!

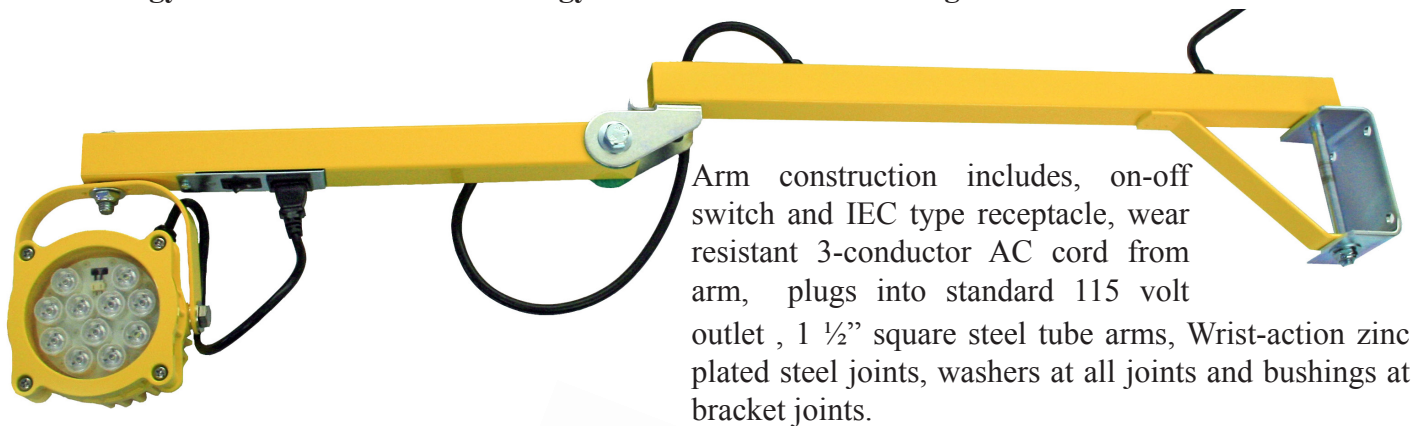

Pentalift LED Dock Light

Pentalift LED dock light offers simple and proven design with all the benefits of LED functionality, including significant energy efficiency and superior lighting volume and visibility for the dock attendant inside the truck.

Pentalift LED Dock Light Design Features

Provides more light to the front of a fifty three foot long trailer than a conventional incandescent dock light with a 150 watt bulb.

16 W Energy efficient uses 89% less energy than incandescent dock lights with a 150 watt bulb.

Arm construction includes, on-off switch and IEC type receptacle, wear resistant 3-conductor AC cord from arm, plugs into standard 115 volt outlet, 1 1/2" square steel tube arms, Wrist-action zinc plated steel joints, washers at all joints and bushings at bracket joints.

Housing constructed from durable cast aluminum with safety yellow powder coat finish.

Long life LEDs (rated 50,000 hours) provide bright uniform light.

"Instant on" operation.

Impact resistant acrylic lens. No Glass.

Head Assembly can be retrofit to existing dock light arms.

Small profile minimizes potential for impact.

Durable, metallic housing and solid state light source.

Housing stays cool to the touch when operating.

Three year limited warranty.

16 watt, 100 - 240 volt, 60Hz. Provided with recessed 3-prong IEC type plug, fits directly into arm receptacle.
