

PENTALIFT EQUIPMENT CORPORATION

Engineered For Safety !

Application Designed: 20,000 lb Capacity High Speed Lift Table

A Manufacturer of Jet Aircraft Landing Gear required a Hydraulic Lift Table to meet a precise high speed application. The Lift Table was designed and engineered to operate during the testing procedure of the companies Aircraft Landing Gear. The Lift Table features a lifting capacity of 20,000 lbs, a platform size of only 4' wide x 7' long and a protective finish coat of OSHA Safety Blue applied over a Lead Free Anti Corrosive Primer. To achieve the high speed operating cycle time the Lift Table is powered both up and down using four (4) Double-Acting Hydraulic Cylinders and a matching Double-Acting Power unit.
